Safe stash for cash

In the current economic climate, home safe manufacturers have seen an increase in demand. Some of the options on the market for people who want to stash cash at home include:

Hidden Wall Safe: What looks like an electrical wall outlet is really a safe. Flip it out from the wall and you'll find a cubbyhole large enough to hold items up to 7 inches long. Cost: \$8.46. (866) 220-0272, keepingwomensafe.com.

Safe-T Bed: Hollandia International's \$6,000-plus "extreme luxury bed" is equipped with more than a massage feature. It can be upgraded with options that include a safe under the mattress. The safe measures 10 inches by 6 inches by 3 inches. Cost of the upgrade: \$800. (215) 988-9707, hollandiainternational.com.

Fire-Safe: Gun-metal gray is an appropriate color for SentrySafe's Fire-Safe Electronic Safe, a popular fireproof, water-resistant, drop-tested model from the 75-year-old U.S. manufacturer. Cost: \$159.99. (800) 828-1438, sentrysafe.com.
